

FAIRUZ ULFATH

ELECTRONICS AND COMMUNICATION ENGINEER

Personal Information

- Burdwan, WB, PIN-713104
- +91 9832782405
- fairuzulfath@gmail.com
- <https://fairuzulfath.netlify.app/>

Skills:

Technical skills:

C, Python, MATLAB, Communication Systems, Digital Circuit Design.

Tools:

MS Excel, Word, PowerPoint, ChatGPT, Meta, Canva, Perplexity, Gemini, NotebookLM.

Soft Skills:

Communication, Teamwork, Time Management, Public Speaking, Critical Thinking.

Language:

- English
- Bengali
- Hindi

About Me:

As a dedicated Electronics and Communication Engineering student, I bring a robust blend of technical expertise and analytical skills to the table. My strengths lie in effective communication and a proven ability to adapt swiftly to changing circumstances, which allows me to thrive in challenging situations. I am known for my collaborative spirit and proactive approach, consistently seeking opportunities for growth and learning in dynamic environments. My goal is to leverage my knowledge and skills to make meaningful contributions in technology-focused roles, driving innovation and efficiency within the industry. With a keen eye for detail and a passion for excellence, I am poised to excel in any endeavor I undertake.

Education:

NARAYANA GROUP OF SCHOOLS

- Year of passing 10TH (AISSE, CBSE): 2020
Qualified with a percentage of 91.8%
- Year of passing 12TH (AISSCE, CBSE): 2022
Qualified with a percentage of 77.2%

B.E. IN ELECTRONICS AND COMMUNICATION ENGINEERING (ECE) UNIVERSITY INSTITUTE OF TECHNOLOGY, THE UNIVERSITY OF BURDWAN

- Batch of 2022 - 2026
- Currently in the final year of the degree (7.038 CGPA).

Professional Profile:

Intern | PRASAR BHARATI | SUPER POWER TRANSMITTER | AKASHVANI, CHINSURA

Address: Hooghly, West Bengal, India

Duration: February 2025-March 2025 (2 weeks)

What I learnt -

- Efficiently operated a 1000kW Medium Wave Super Power Transmitter for a two week period.
- Learned and monitored frequency assignments related to Amplitude Modulation systems.
- Rectified errors by analyzing logs of transmissions.

Vocational Training | DURGAPUR STEEL PLANT CENTRE FOR LEARNING & DEVELOPMENT

Address: Durgapur, West Bengal, India

Duration:

28th July 2025- 08th August 2025 (11 Days)

Departments:

CL&D	COKE OVENS	RMHP
SINTER PLANT	BLAST FURNACE	SMS
W&A PLANT	MERCHANT MILL	MSM

Project Work:

Mini Projects:

LPG Gas detector using MQ-5 Sensor

- LPG Gas Detector using MQ-5 Sensor Built a gas leak detection system with MQ-5 sensor for real-time alerts.

Digital Clock without using Arduino

- Designed a fully functional digital clock using discrete components (e.g., 555 timers, 7-segment displays, ICs) to accurately display hours, minutes, and seconds, demonstrating fundamental digital circuit design principles.

AC to DC Voltage converter

- Developed a basic AC to DC voltage converter circuit for small electronic devices, successfully converting 230V AC to a stable 5V DC output.

Major Project:

- DESIGN AND IMPLEMENTATION OF A MACHINE LEARNING MODEL FOR REAL-TIME GNSS BASED IONOSPHERIC WEATHER FORECASTING

Certifications:

Trainee | West Bengal Council of Technical & Vocational Education and Skill Development

Address: Purba Bardhaman, West Bengal, India Duration: June 2024- June 2025

What I learnt -

- Acquired knowledge of computer applications and networking fundamentals focused on basic topology configurations.
- Enhanced programming skills in C and Python to address algorithmic problems with effective data structures.
- Leveraged MS Office tools for comprehensive data management, document creation, and presentation development.

AI for Everyone | DeepLearning.AI (Coursera) – Instructor: Andrew Ng

- Duration: 6 Hours (Self-paced)
- Key Learning: Mastered AI terminology (Neural Networks, ML, Deep Learning) and identified strategic AI applications and ethical considerations in technical workflows.
- Gained a comprehensive understanding of AI terminology (Neural Networks, Machine Learning, Deep Learning) and identified opportunities to apply AI within organizational workflows.
- Studied the ethics of AI, including bias and societal impact, and learned to navigate the lifecycle of AI projects from data collection to deployment.

ChatGPT & Generative AI: The Complete Guide | Udemy

- Duration: 21.5 Hours (On-demand video)
- Key Learning: Developed expertise in prompt engineering, OpenAI API integration, and leveraging Large Language Models (LLMs) to automate engineering tasks and enhance productivity.
- Mastered prompt engineering techniques and the integration of Generative AI tools (ChatGPT, Midjourney, GitHub Copilot) to enhance productivity.
- Explored the technical implementation of OpenAI APIs and the practical applications of Large Language Models (LLMs) in automating routine engineering and business tasks.
